

EPIC STUDIOS Australia

SOLOS, DUOS & PRIVATE LESSONS

SOLOS & DUOS BY INVITATION

From 2022 all solos & duos will be by invitation only. The EPIC Team will extend an invitation to perform solos or duos to students who show great promise, work ethic and commitment in their regular classes. At EPIC Studios we are always seeking opportunities for our students to extend themselves and we have a strong belief in following the correct progressions along the way. Our expert team are highly experienced and will extend a letter of opportunity when students are ready for the next step of joining the ELITE Soloists Performance Team.

PURCHASE OF ROUTINES

Commencing in 2022 all solos & duos must be purchased upfront and owned by students. Routine Prices will differ depending on the choreographer. At the time of being offered solos/ duos all information regarding costs of routine purchase will be included in your invitation pack. For students who have hired a routine this year, and are invited to perform the same routine for 2022 – any hire fees paid in 2021 towards your routine will be deducted from the cost of your routine purchase for 2022.

All routines will be taught in a 3 hour choreography block prior to the start of the term or over a weekend. The cost of the routine purchase will include the 3 hours of time to learn your routine, edited music, a full costume brief and ownership of the routine. The routine must be paid upfront prior to or at the commencement of this choreography block.

All routines must be purchased/ choreographed by an ESA staff member or ESA affiliated choreographer.

EPIC STUDIOS Australia

CHOREOGRAPHY BLOCKS

There will be various dates set for choreography block sessions for learning of new routines in 2022 which will extend throughout the year. Additional students may be offered to join the soloists team as more sessions become available during 2022. Invitations may be received anywhere from end of 2021 right through until June/ July Holidays of 2022. All routines will be learnt in the Sessions below – **no routines will be choreographed and taught in private lesson time during the term.**

Current Plans for Choreography Block Sessions for 2022 are as follows (pencil in dates only):

SESSION 1 JANUARY SCHOOL HOLIDAYS

SESSION 2 28 MARCH – 2 APRIL

SESSION 3 19 – 24 APRIL

SESSION 4 20 – 25 JUNE

SESSION 5 11 – 16 JULY

PRIVATE LESSON TIMES & TUITION

From 2022 there will not be private lessons time slots on the timetable that can be booked on a full term basis. A private lesson booking engine will be introduced and all private lesson teachers will have spots available for booking each week – days and time available with each teacher may differ from week to week.

To avoid the need for tracking makeup lessons/ credits and to allow flexibility in costs for our families all private lessons will use a 10 CLASS PASS system. Students who **already own & have learnt their routines** will be able to purchase a 10 class pass for private lessons. One stamp will be equivalent of 30mins private lesson time. **Students must hold a current 10 class pass** to book private lesson spots via the booking engine. At the time of attending the lesson the students 10 class pass will be stamped. This will mean, if a student has school camp or chooses not to book a lesson in one week there will be remaining lessons on the pass to carry forward to the new term. Students may also wish to alternate weekly between booking a lesson and hiring the studio for solo practice to stretch their private lesson pass out a little further. Please note that students are only permitted to have lessons on solos with EPIC Staff.

EPIC STUDIOS Australia

ON SELLING YOUR ROUTINES

We understand the costs of being a soloist can add up quickly and we do appreciate that you would like to on sell your routines when the time comes for you to get a new one. We ask that you please remember that each dancer is very different and when we choreograph a routine we do so to suit the style and strengths of each individual.

We would love to assist you in being able to on sell your routines, however we ask that if selling the routine to a student of EPIC Studios please contact our team with the routines that you wish to sell so that we can ensure that routines are suitable for the buyer. We would be pleased to find a suitable dancer for your routine.

OWN CHOREOGRAPHY

Please note that when entering competitions under EPIC Studios Australia students are under no circumstances permitted to enter self choreographed routines in any sections other than the student choreography section. All routines for solos and duos must be choreographed by a professional choreographer in consultation with EPIC Studios Australia.

ENTERING COMPETITIONS

We love to give our students as many opportunities to perform as possible and encourage our soloists to enter various competitions – even those that we are not attending with groups.

We do however ask that you communicate with us **BEFORE** you enter into any competitions. This allows us to ensure there are no clashes in our schedules and that competitions are not too close to other important events that students are working for in their regular classes. This also allows us the opportunity to put the word out to others in the EPIC Family to see if we can get a group together for another EPIC opportunity!
